Nurse Call Ancillaries

INDUNA Entertainment Handset

EL-ENT/H-HS-003S-10

Description

This Australian Registered Nurse Call Entertainment Handset has been designed with total infection control in mind. The patent designed speaker with window shutter protects the handset from dust and water whilst being rated at IP67. With its aesthetic and lightweight design, yet durable construction, the handset looks and feels great and is easy to use. The handset offers an easy grip and handling to its users. The blue silicon jacket (optional) makes the handset more hygienic, lending itself to eliminating slippage and is softer to the touch. You can plug the handset directly into the wall plate or with an optional adaptor dongle.

Features

Suitable for use with most existing Nurse Call and TV systems in the industry.

INDUNA Entertainment Handset Cradle

EL-ENT/H-HS/CRA

Description

The wall mounted cradle is uniquely designed for the handset so that it can easily be accessible, alleviate trip hazard and reduce damage to the cord lead.

INDUNA Entertainment Handset Wall Socket

EL-ENT/H-HS/WSP

Description

The wall socket is designed and wired specifically for the *INDUNA* Entertainment Handset. It is suitable for new installation or as a replacement wall socket for existing system as long as electrical wiring is the same. No adaptor dongle lead is required when using this wall socket.
